Passion, Pride, Innovation.
YOU! are in the people business.

It's Showtime!

Get, and stay, out of the box.

Jon Petz

Passion, Pride, Innovation. Having passion and pride in what you do starts with yourself. Passion in your daily activities originates from doing your best work while having the most fun. For exponential results, go the extra mile, even when no one is watching, and be willing to make a commitment to constantly improve who you are and what you do.

YOU! are in the people business.

The basis of life is people and how we relate to each other. Our ability to find joy, success and personal fulfillment, depends on our ability to relate effectively. This is not only critical for those in the sales and service industries, but critical for any audience that has ever had to deal with anyone. AAhhhh...yes, that means YOU!

It's Showtime!

It doesn't matter WHAT you do, it's HOW you do it that counts. This highly entertaining and mind-blowing presentation allows your attendees to see and experience the importance of every aspect of what they do. They will no longer 'JUST' file a report or 'JUST' make a call. They will go after everything with an "It's Showtime" attitude!

Get, and stay, out of the box.

The true achievers are those who decide to actually make a commitment to get, and stay, out of the box and keep driving forward. You must be willing to do what your competition won't if you want to be soaring in corporate jets instead of riding with the competition in... "the middle seat."
